VOICE and COLLABORATION

Bring your users leading technology platforms that are purpose-built for your needs and keep your organization connected around the globe.

innov8 your telephony solutions to align with your business objectives.

Gartner estimated that over the next couple of years, 50% of organizations will experience increased collaboration between their business and IT teams. That number has inevitably grown given the challenges the COVID-19 pandemic has put in front of technology business leaders. Are you and your business ready?

Regardless of the technology you currently use, **INNOV8 has the expertise and provider relationships to transform your IT organization into an efficient, cost saving machine.** Our voice and collaboration offerings span traditional voice technologies to the latest Voice over IP (VOIP), Unified Communications as a Service (UCaaS), and Contact Center as a Service (CCaaS) platforms.

The result? Technology that enables your users to meet seamlessly with each other and support your clients in a more efficient manner. More efficiency translates to expense reduction and creating a better user experience - both internally and externally - and provides a runway to change how you bring your products to market.

Features and Benefits

COST STRUCTURE

Transform CAPEX into OPEX for predictable budgeting and more reliable spend forecasting
